Every day of our lives, each of us is faced with decisions we must make. There are obstacles in our way, things that frustrate, confuse, and often discourage us. We must decide whether these hurdles are going to stop us or merely slow us down.

For us today these obstacles can seem particularly insurmountable. We are faced with problems on the national scale that are unparalleled in recent decades. To many, the scandals and the corruption which have been revealed in our government seem overwhelming. Many will choose to abandon "the system" and even attempts to reform it.

2. Doug Arpert;
3. Roger Steffans, Mrs. Kalb, Jeff Johnson, Kathy Patterson;
4. Cindy Wiggs, Mary Beth Carluccio

We are faced with shortages: gas, energy, paper, wheat, and money. Some say that these too are a product of a corrupt government. Others blame them on the Middle East conflict, and the greed of large corporations.

Added to this are the usual challenges which confront each high school student; the pressures of school work, social life, athletics, and after school activities.

We must decide how we will deal with the obstacles which confront our society and how we will handle the problems which we face in our personal lives. Both as a group and as individuals the question remains, "Where do we go from here?".

## student life

What is Student Life? It's a chronicle of our lives here at Ramapo. It shows how we've spent our days, what we did, and where our interests lay. Student Life should help to give insight into what it was like to attend Ramapo this year. It helps us to see where we've been and what we've accomplished. Now, we must decide, "Where do we go from here?"

Walking into the wrong room, being late to class, mixing up those "O"'s and "E"'s; the first few days were a harrowing experience for the Freshman students. But soon they discovered that the school really wasn't that big after all and before they knew it, they could get from first period English class to second period Biology lab in three minutes flat. The Algebra class began to sound logical, the science labs became less confusing, and French began to make more sense. The Freshman began to join clubs, make friends, and settle into the routine of high school life.

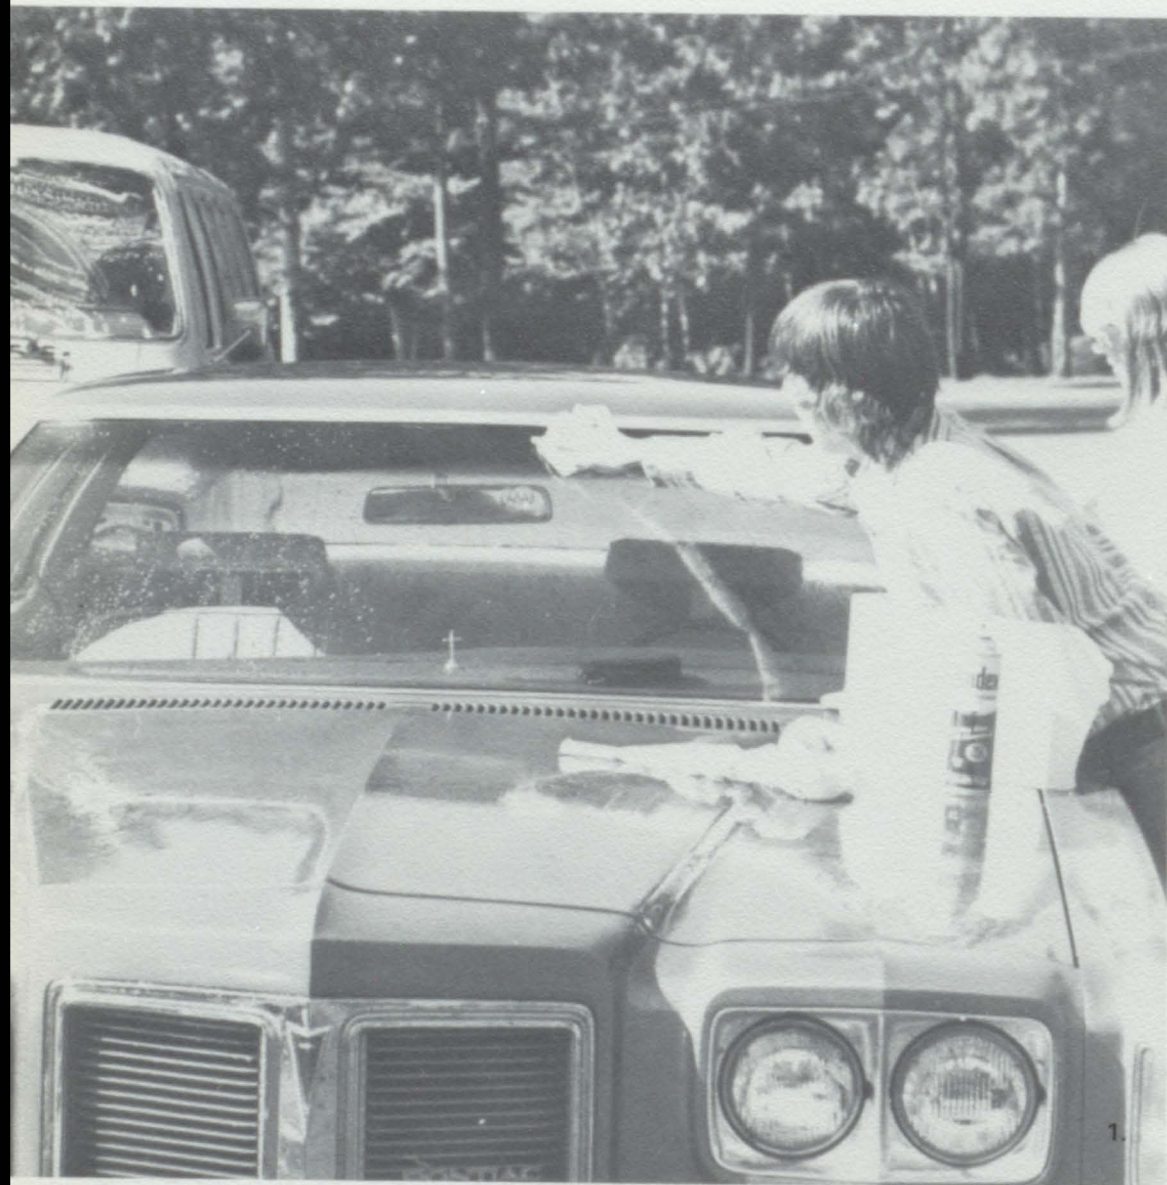

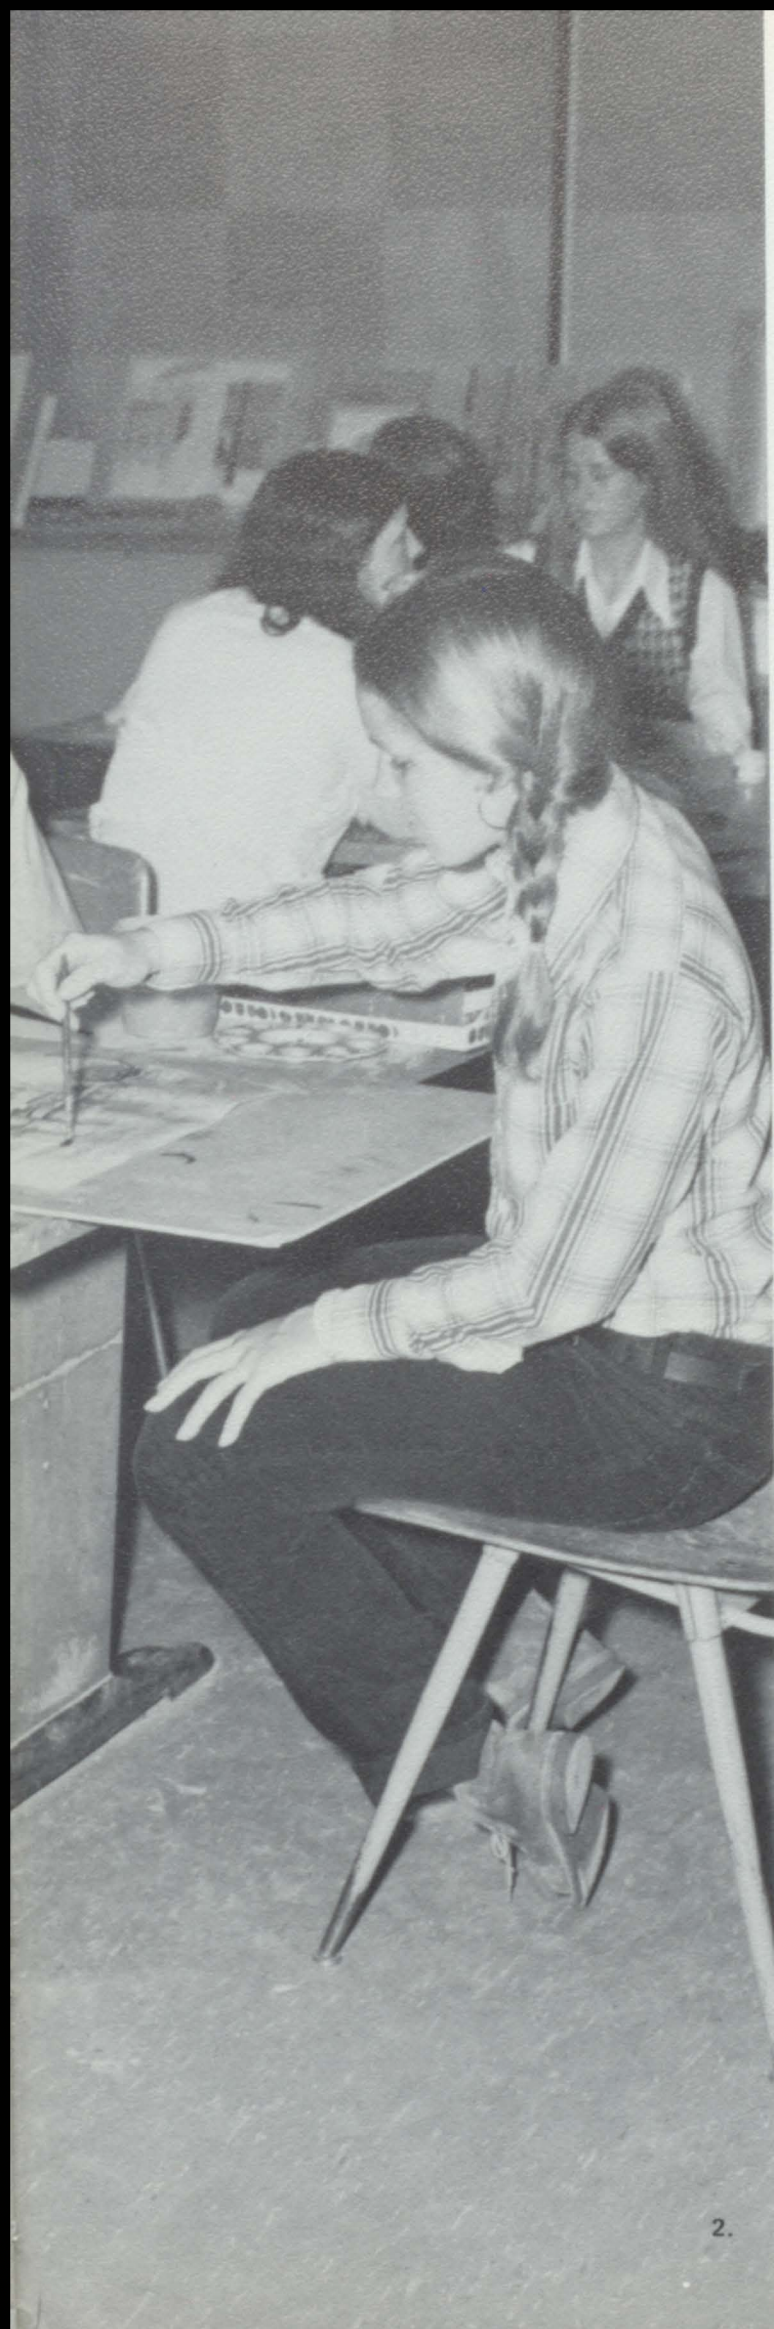

In our year at Ramapo we experienced a mixture of the usual and the unusual. The usual — our daily classes, contacts, and conversations — made up the bulk of the year. However, special activities, planned and unplanned, highlighted our days. The Senior car wash, YOUR FATHER'S WHISKERS, and the AFS Fashion Show were carefully organized. Other events were unscheduled; the fire in room 510 and the streaking in the Commons. These events added a little spice to our days and made our year different from all others.

Players practiced, cheerleaders, raiders, majorettes, color guard, and the band rehearsed five days a week, sometimes six, for Saturdays. Saturdays in the fall were filled with football and all the fun, music, and parties that surround the actual game. Even if the team didn't do well, people still turned out for the games and win or lose, football will always play a major role in the fall months at Ramapo.

After-school activities played a major role in the life of Ramapo. Students had an opportunity to further pursue their interests outside the classroom or just got together for a good time.

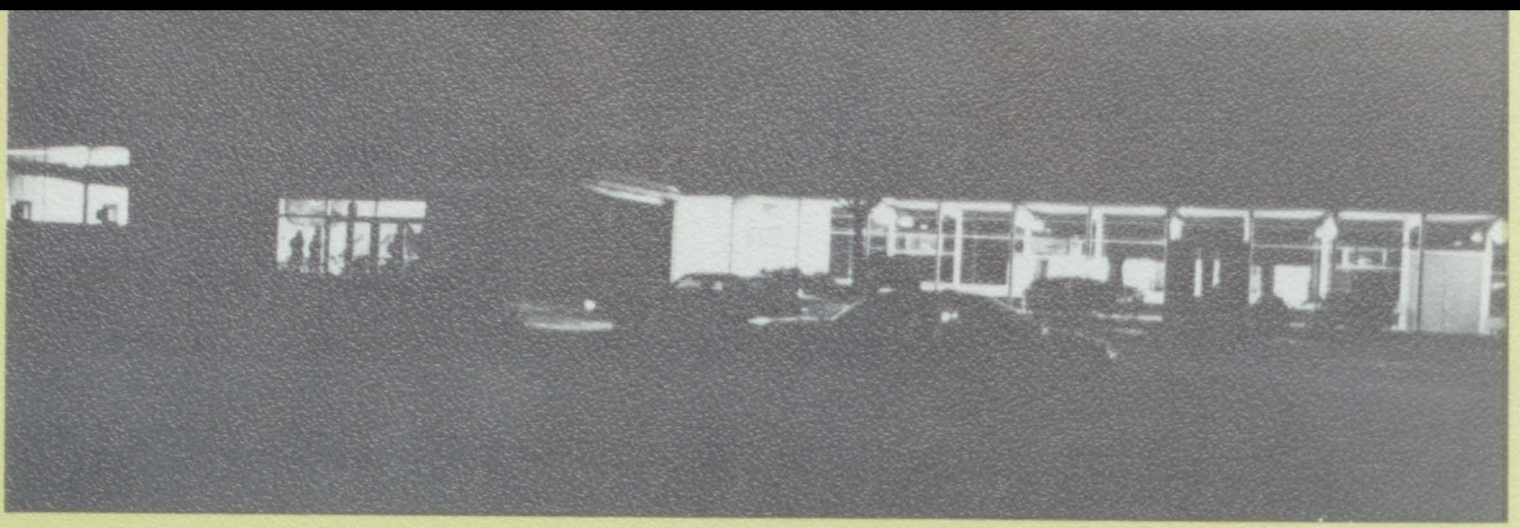

This year Gold Masque staged two successful productions, foreign language clubs held their annual "Fete-International" and YAC continued its popular activity nights. These activities enlivened our day and gave our school its individual personality.

This year we were hit with shortages, crises, and scandals from all sides. We had to adopt our life styles to a quickly changing national scene. Adjusting to the gas shortage meant waiting on hour-long lines, adhering to odd and even day schedules, and severely limiting our driving. The energy crisis meant coming to school in the dark and becoming conservation conscious. The political scene was one of constant uncertainty. We were confronted with incidents of corruption, innumerable scandals, and finally the question of Presidential impeachment. The right to vote and the fact that national events hit so close to home served to awaken students to the world outside their school.

2. Mrs. Milewski and Lisa Relyea, Jill Clearihue.

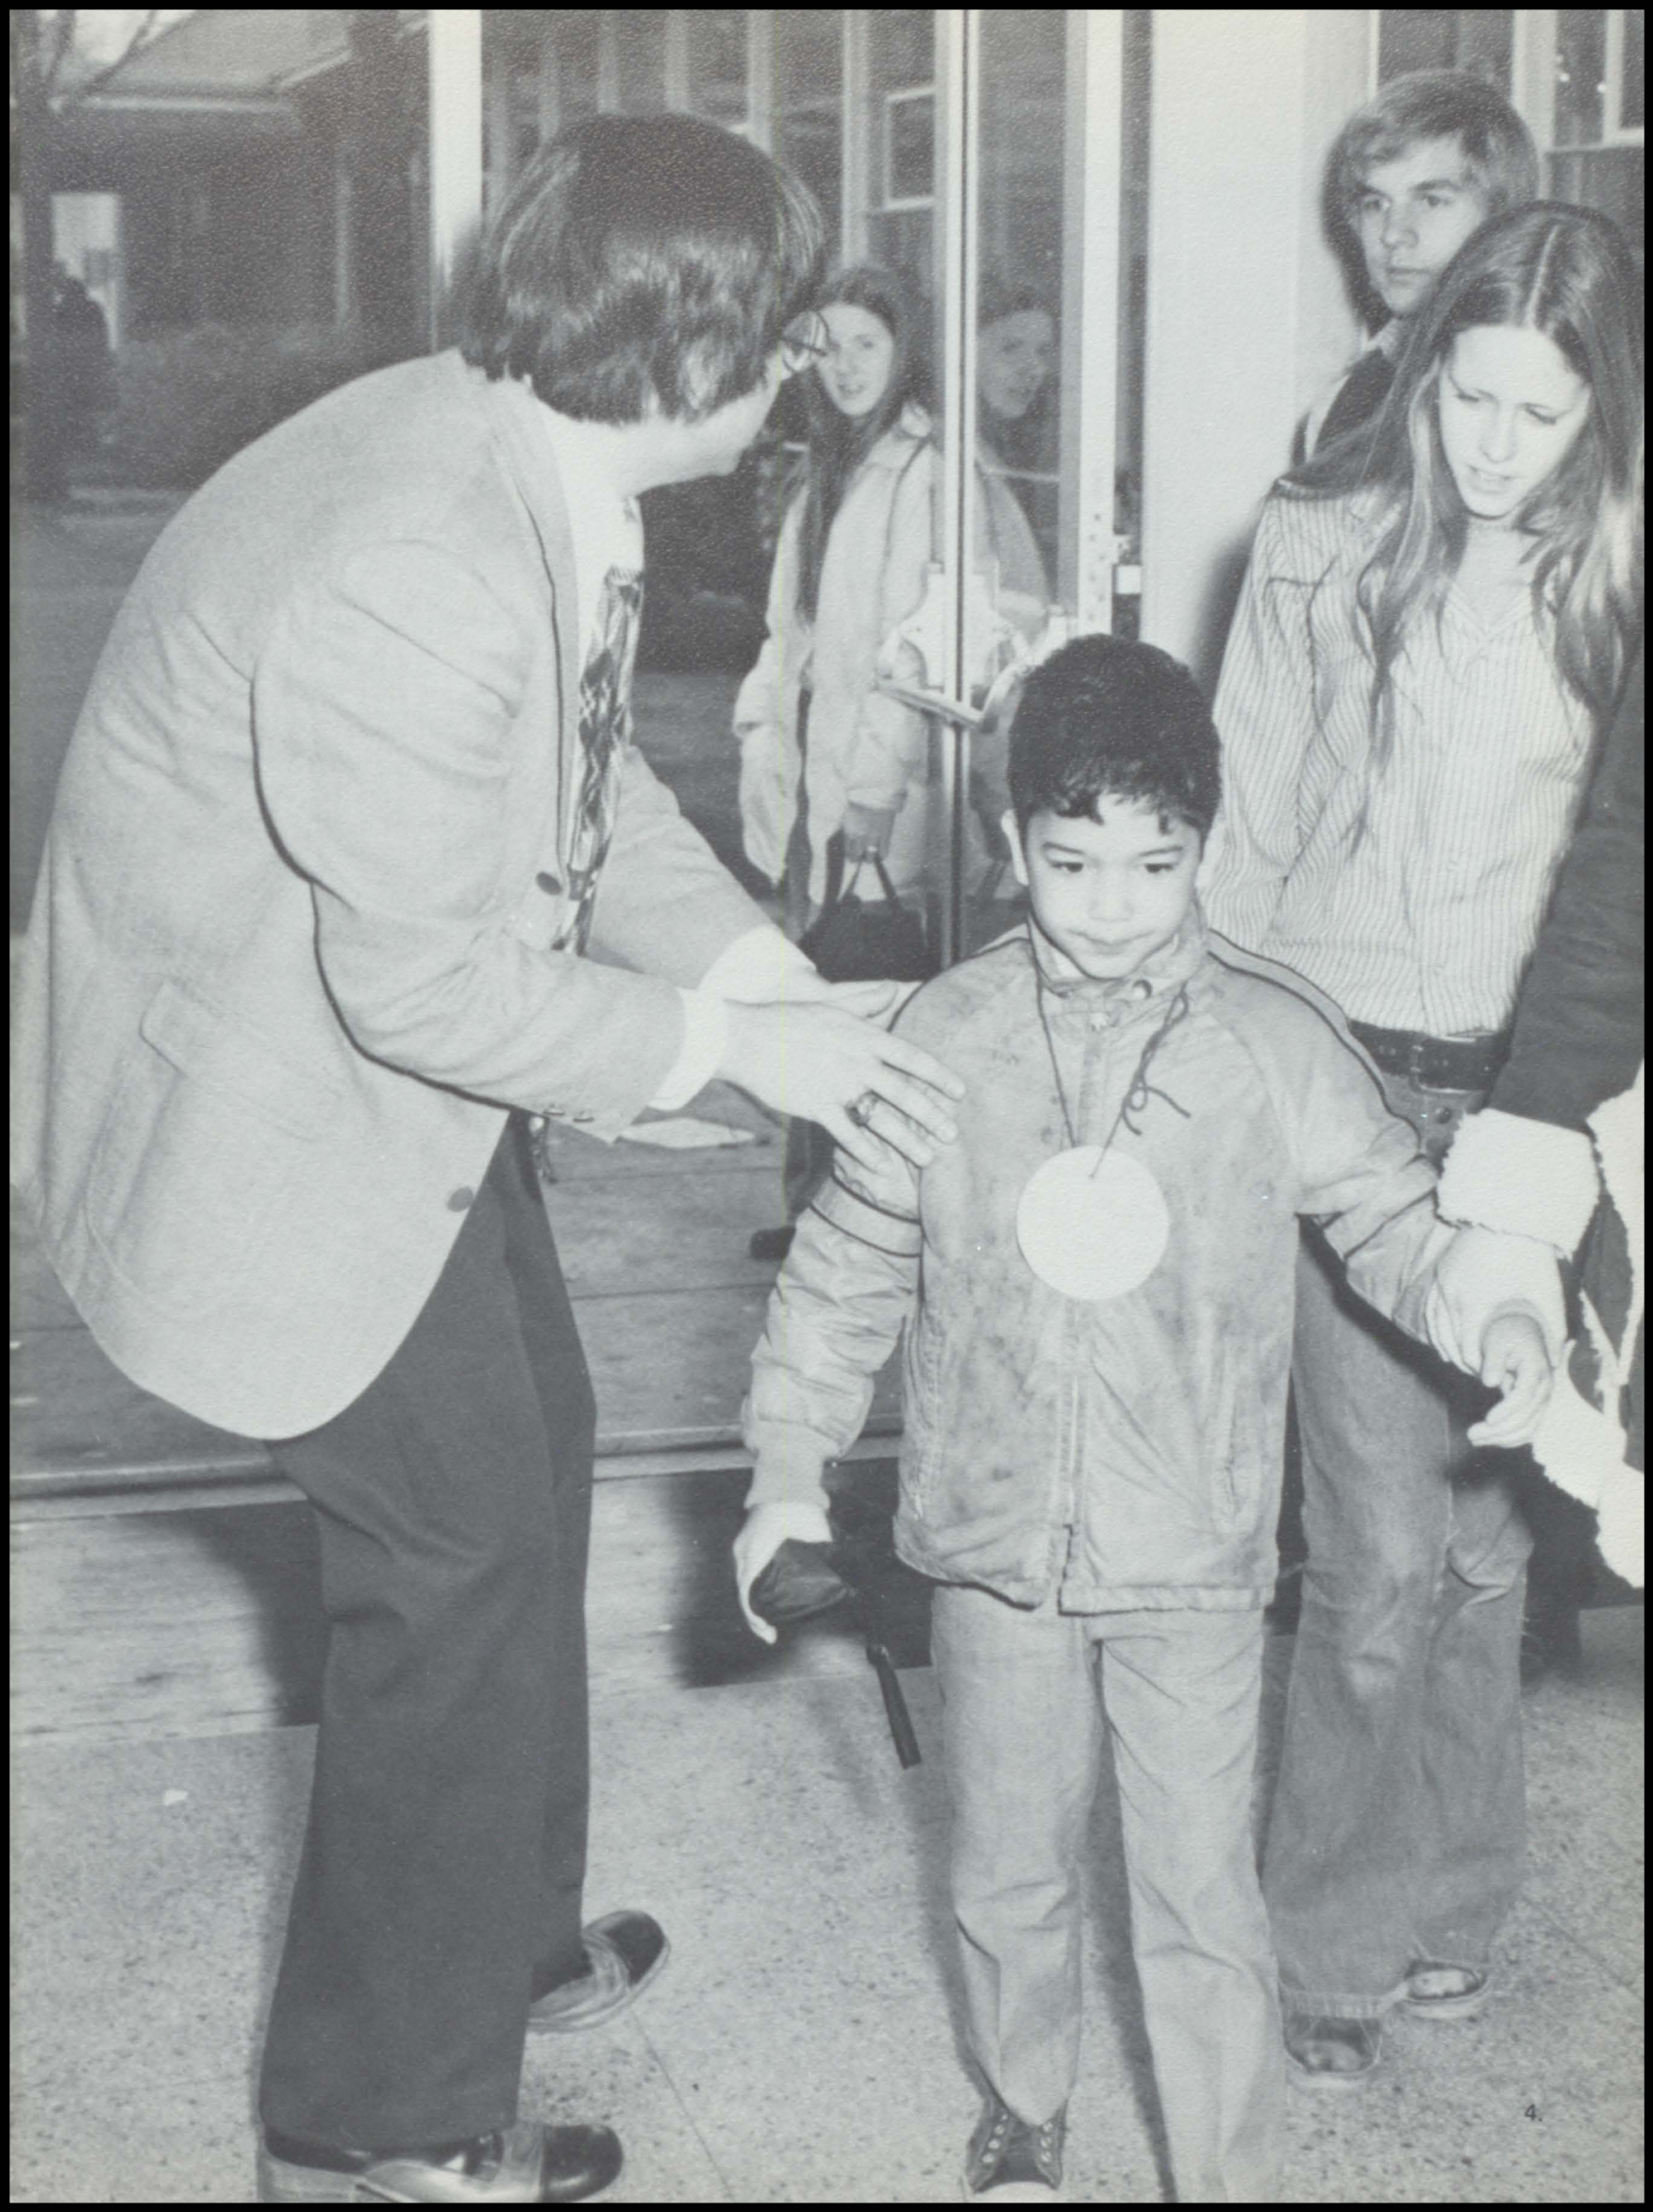

3. Santa Claus (Mr. Caruso) and his reindeer.

4. Mr. Godthaab and a friend.

The holiday spirit filled the halls of Ramapo this year more than any other. With the Holiday Festival in its second year, YAC did a great job in making the holiday a special one for elementary school children from Paterson. Our halls also reflected the holiday spirit as a result of the decorating contest sponsored by YAC. Classrooms were labeled "Elves' Workshop" and presents were hung from the hall ceilings. The Christmas Assembly climaxed the excitement with Mr. Caruso as Santa and the band up to its usual standards.

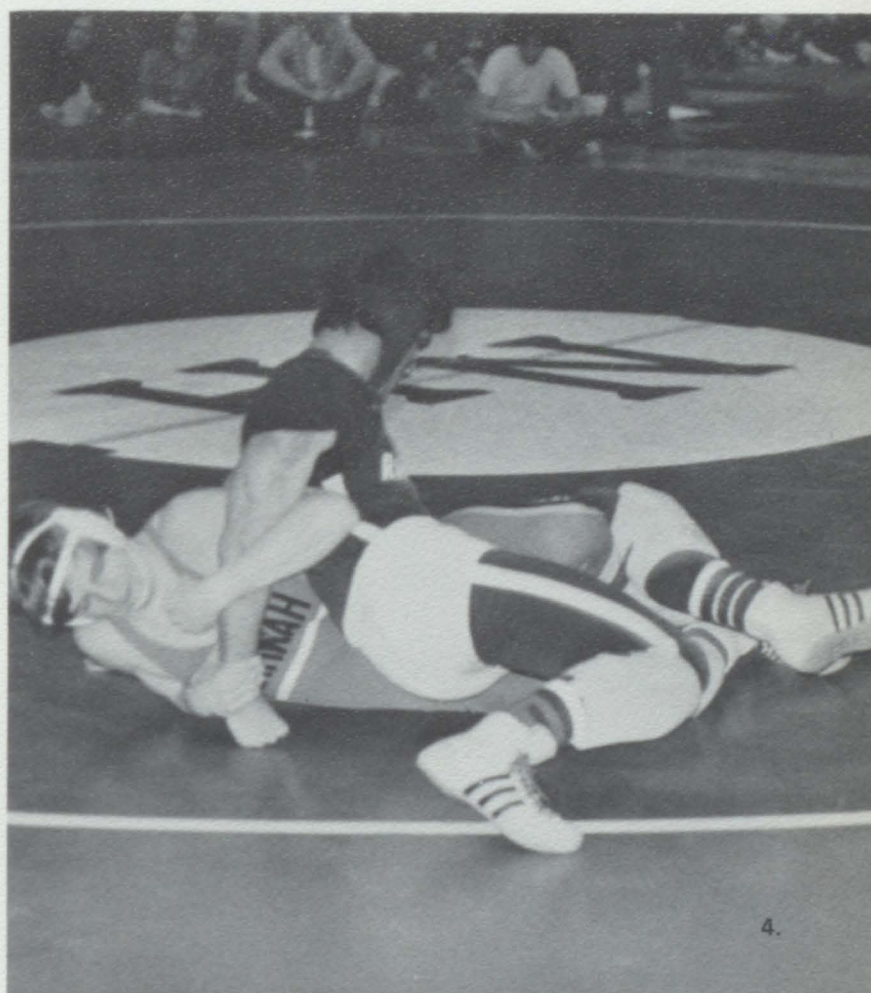

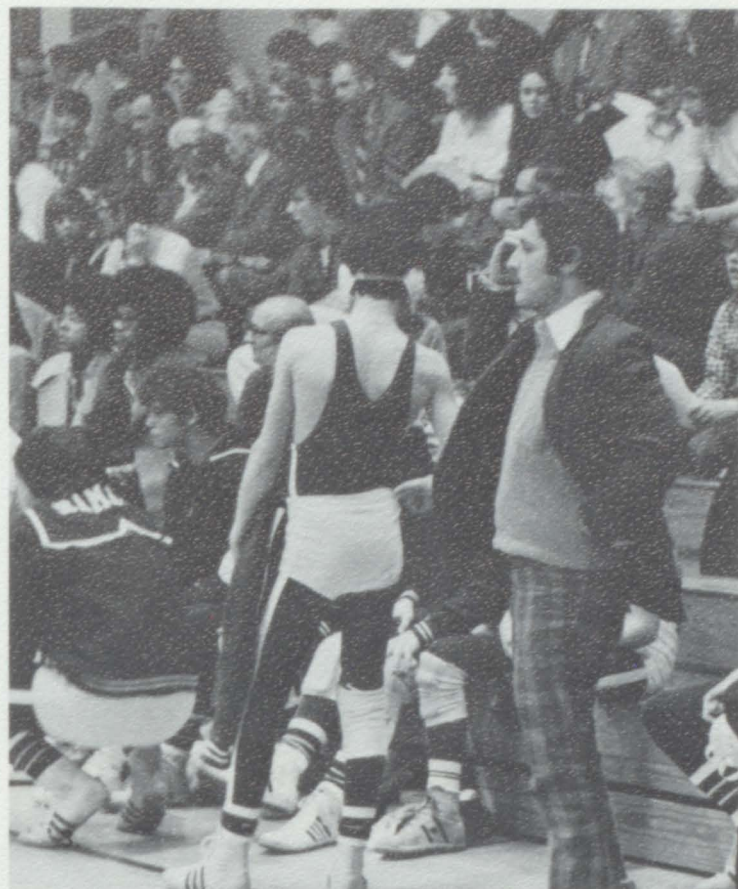

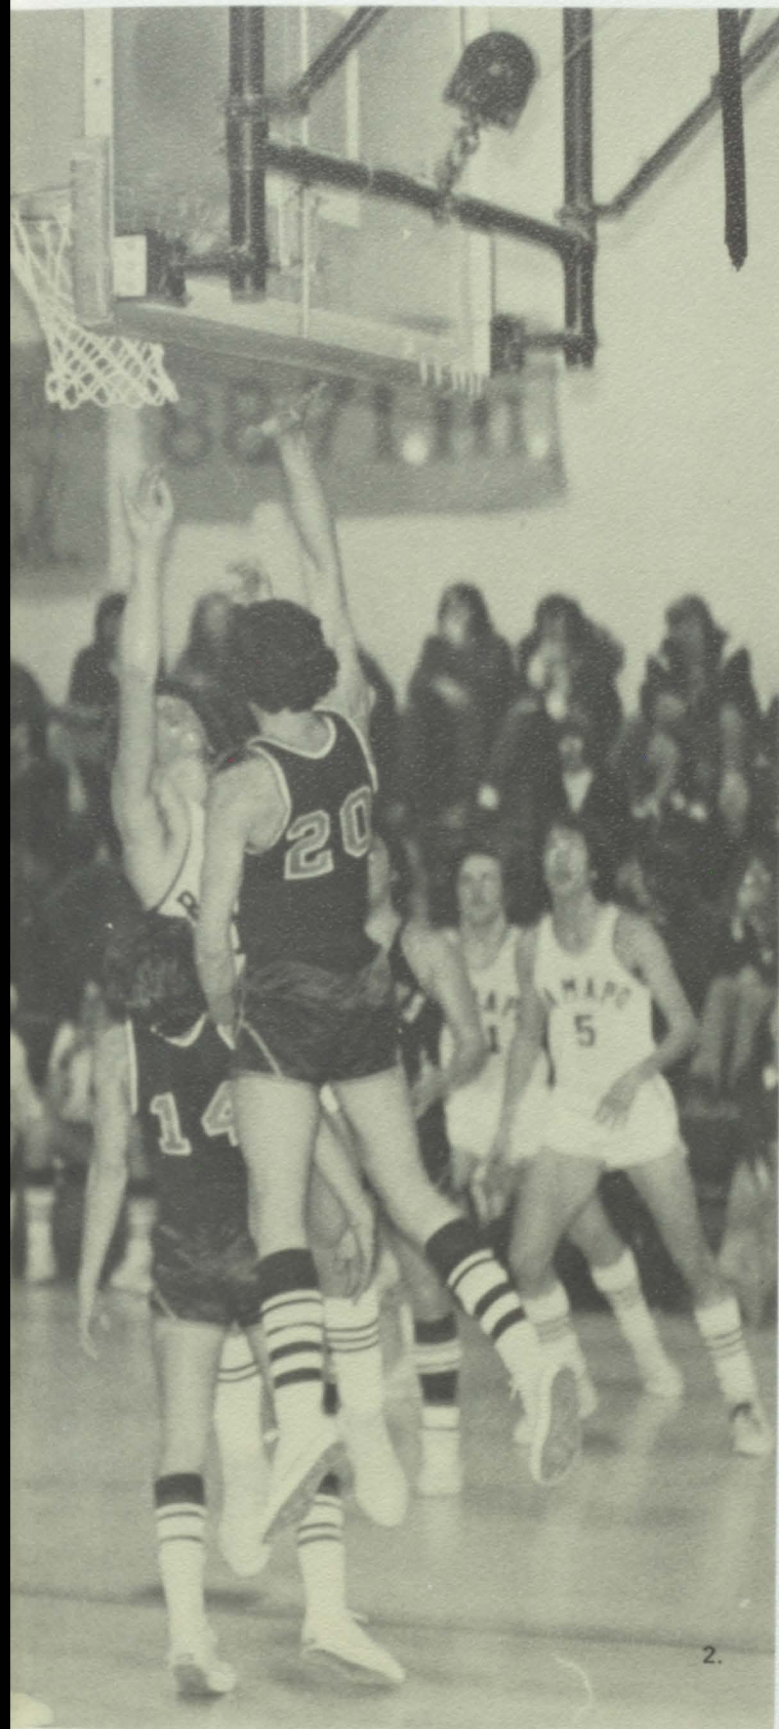

During the long winter, sports served as an outlet. Many became ardent supporters of the basketball and wrestling teams. The followers witnessed two fine teams, both with outstanding records. A basketball era came to an end as Coach Hal Corizzi, completed his final year. Ramapo wrestling had a winning season under Coach Bob Cancro.

These sports and the fencing, bowling, and other winter teams helped provide excitement for both participator and spectator.

3. Coach Cancro.
4. Mark Zaretski.

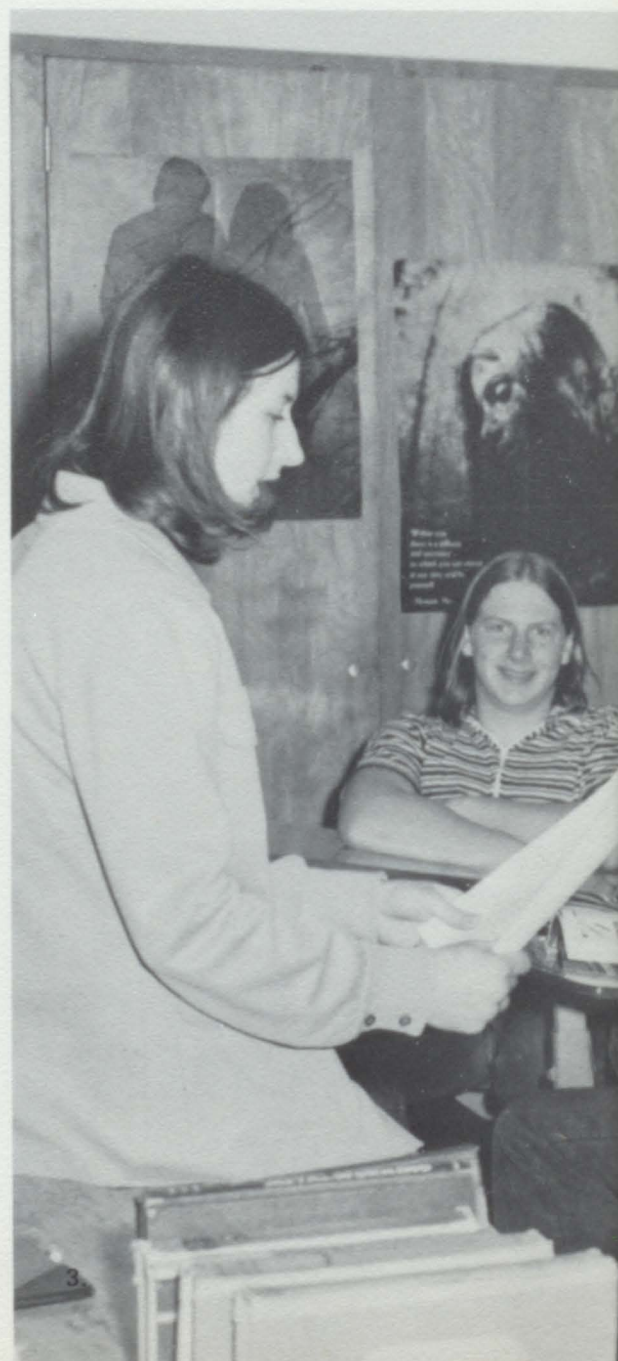

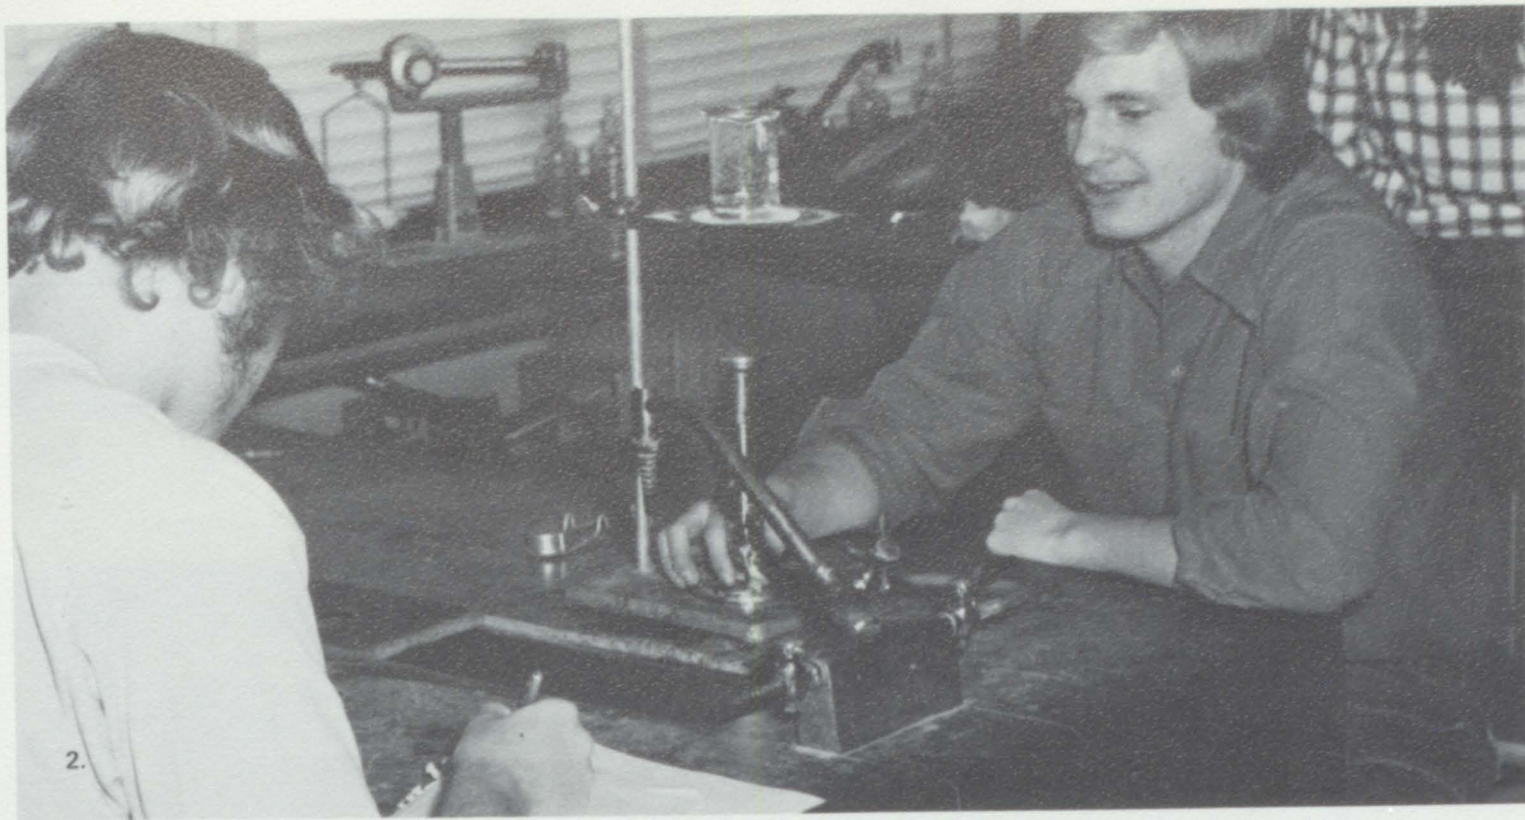

Each day we came to school and trudged from class to class. Some of these classes were stimulating, challenging, even fun. Others were just plain boring. What we gained from each of these classes depended upon the teacher's ability to spark enthusiasm and upon our desire to learn. During our free periods we sat around in the Commons talking about movies, parties, homework, and teachers. Or we spent the time in the library working on a paper or finishing some homework. It was the free periods that helped us make it through the day.

Ramapo students learned a great deal from the stimulation of a classroom. However, for many, it was the close personal relationships with other students and with teachers that helped us gain understanding of ourselves and the world. It was through these personal contacts and our own outlook on life that we grew as individuals.

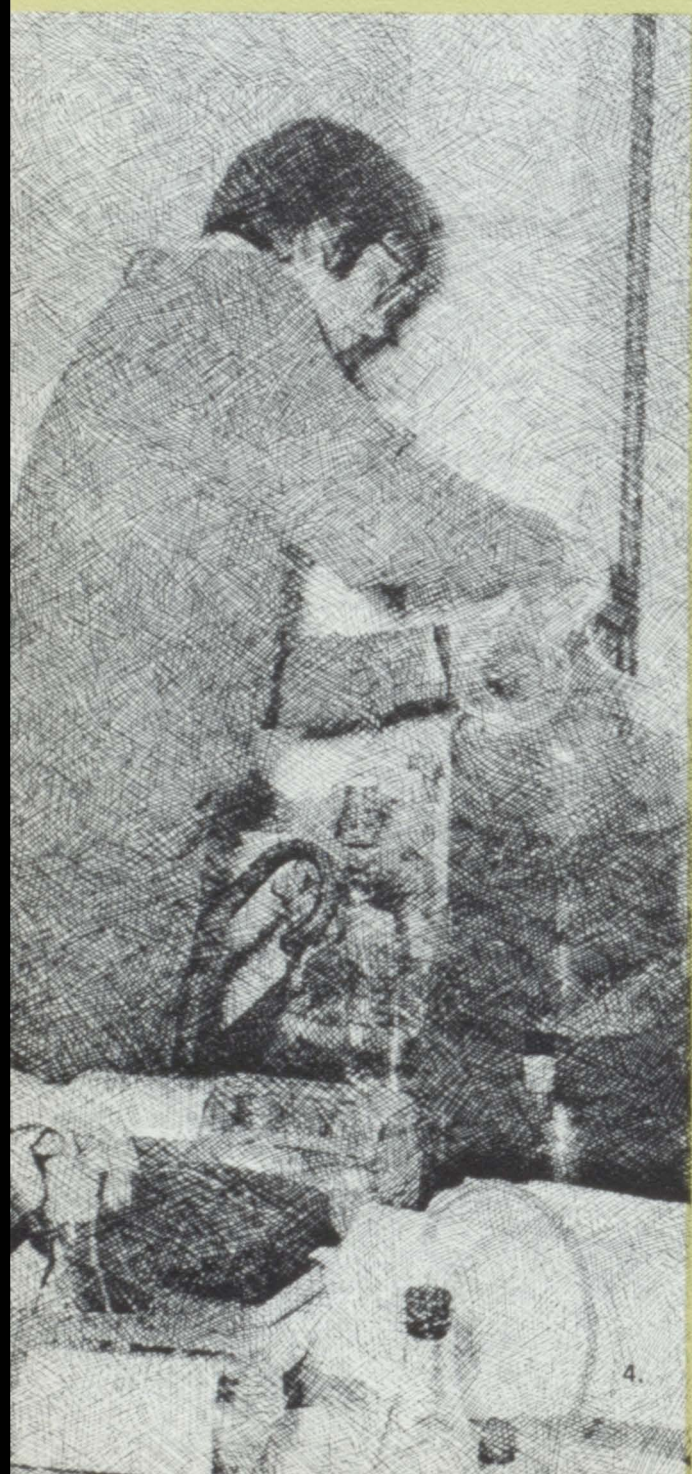

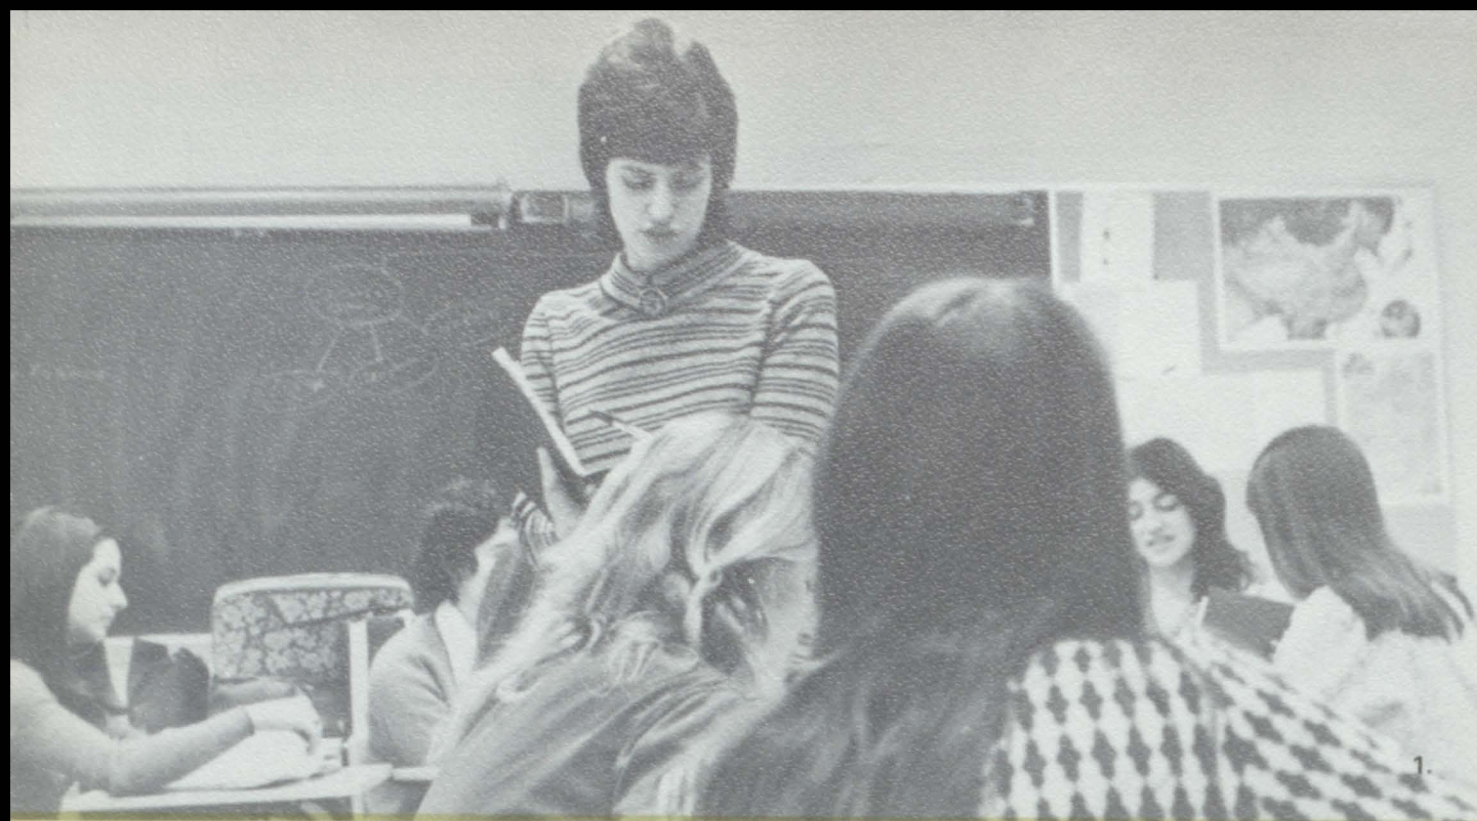

In the spring everything seemed to change course. The emphasis was shifted from the classroom and our outside interests began to take a stronger hold. Gold Masque staged another successful musical and the baseball season moved us out of doors. Then finally graduation, the parties, the prom, and then the summer vacation. These are the symbols of an end and a new beginning. "Where do we go from here?"

## academics

Working together teacher and student make a class. Some classes are downright dull, others are exciting experiences we'll never forget. The classroom has been expanding way beyond its former walls. Today an English class can mean, seeing films, attending plays and museums or doing a radio show. Math conjures up visions of solving mathematical equations by computer. Social studies can be a trip to the UN, an archeological dig or psychological field study.

The faculty has been working hard, constantly improving and revising curriculum. They and we must take these new innovations and decide "Where we go from here."

The Guidance Department administers tests, tailors schedules to the individual, and helps students with any problem they may have. To be better able to serve, the Department keeps abreast of new trends in education.

The Department has been placing more emphasis on the many options open to graduates. Today a great number of students choose careers in the business world and in vocations rather than continue their education by attending college. Because of this trend, the Guidance counselors spent their Professional Day with a representative from the Department of Labor who spoke on the various types of apprenticeships open to graduates.

For those who plan to go to college the Department sponsored an Alumni Coffee Hour. Alumni were invited to return and speak more intimately and personally to seniors about the colleges they attend.

They also sponsored a Back-To-School Night to provide parents with an opportunity to meet teachers and become acquainted with courses of study.

*Ron Miller continues his unending search for his "perfect college."*

## and Readers' Theatre . . .

## expand English program

The English Department has expanded the whole concept of their elective program to enable seniors to make their own decisions as to what they would like to study or what they felt they had a need to study. As a result the following courses have been added: Independent Study in Career Education; Mystery and Detective Stories; Myth and Epic Literature; Oral Interpretation and Readers Theatre; and Discussion and Debate. The Speech Arts and Theatre Arts Programs were designed to accommodate the increasing number of students interested in theatrical productions.

Next year the junior program will introduce elective course offerings which have been planned by current English teachers.

The emphasis during the freshman and sophomore years will be on students' achieving competence in the basic skills of writing, speaking, and reading. The reinforcing of basic disciplines of writing and training students to apply these to their own writing is the primary objective of all English teachers.

## The New Math plus Smith Fagans add up to a challenging subject

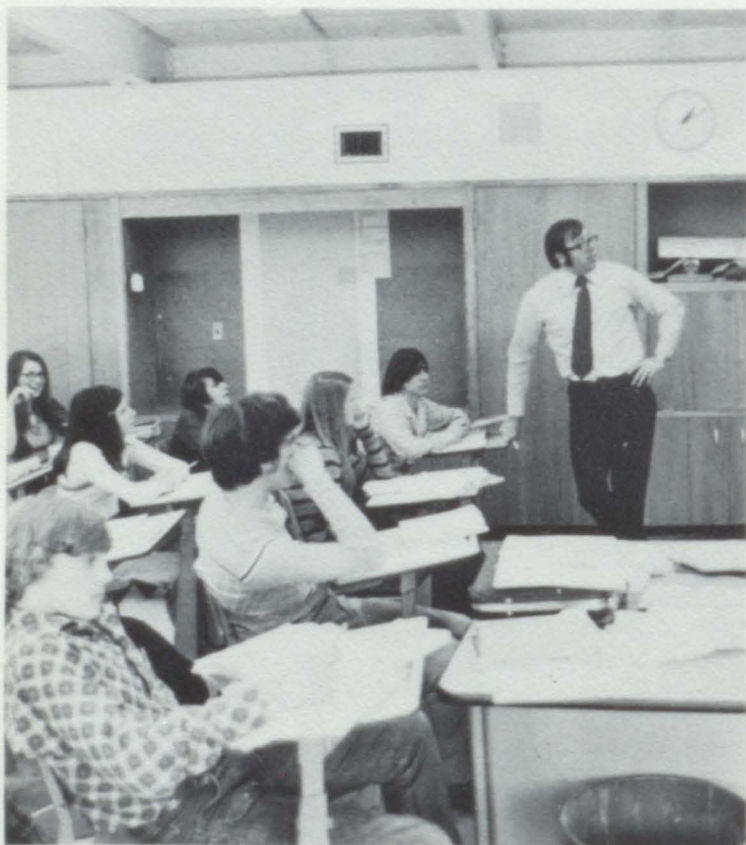

The overall goal of the Mathematics Department is to equip all students who leave Ramapo with an understanding and the skills to serve them in every day life as citizens and taxpayers.

The Mathematics Department offers a complete program of five to five and a half years of math. This year they have been revising both the geometry course through changing sequence and reevaluating essentials and Algebra II course of study which has been reorganized to include a substantial unit in trigonometry.

The advent of the computer has contributed a great deal not only as a teaching aid but as a means of solving problems in statistics. A new course in computer programming has been introduced. At present students have been taught to use the computer in conjunction with other subjects.

Understanding through experimentation is the underlying theme of the Ramapo Science Department. From Science nine through advanced senior courses, laboratory experience is the approach used in all classes.

For the first time chemistry was offered to sophomores in preparation for second year courses in chemistry and physics in the twelfth grade. These new courses will join the ever popular Advanced Biology in the senior year program.

It is the hope of the Science Department that these scientists of tomorrow through imagination and creative minds will find some of the answers to the many problems yet to be solved.

## Students take another look at education . . . Business, Secretarial, Bookkeeping, Accounting . . . jobs in the immediate future

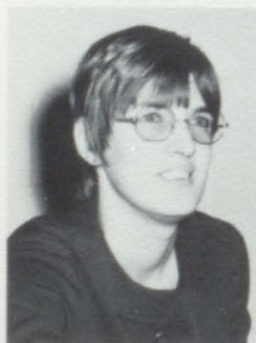

The Business Education Department has two main objectives: to provide career training in the business field, enabling students to obtain skills and knowledge for employment after graduation; and to provide business subjects such as personal typing and Consumer Education for non-business students.

The Department also offers senior work experience in the Distributive Education field. Students involved in this program attend regular classes during the morning hours of school and report to an assigned training station in the afternoon. Each student works a minimum of fifteen hours a week, for which he is paid and for which he receives high school credit.

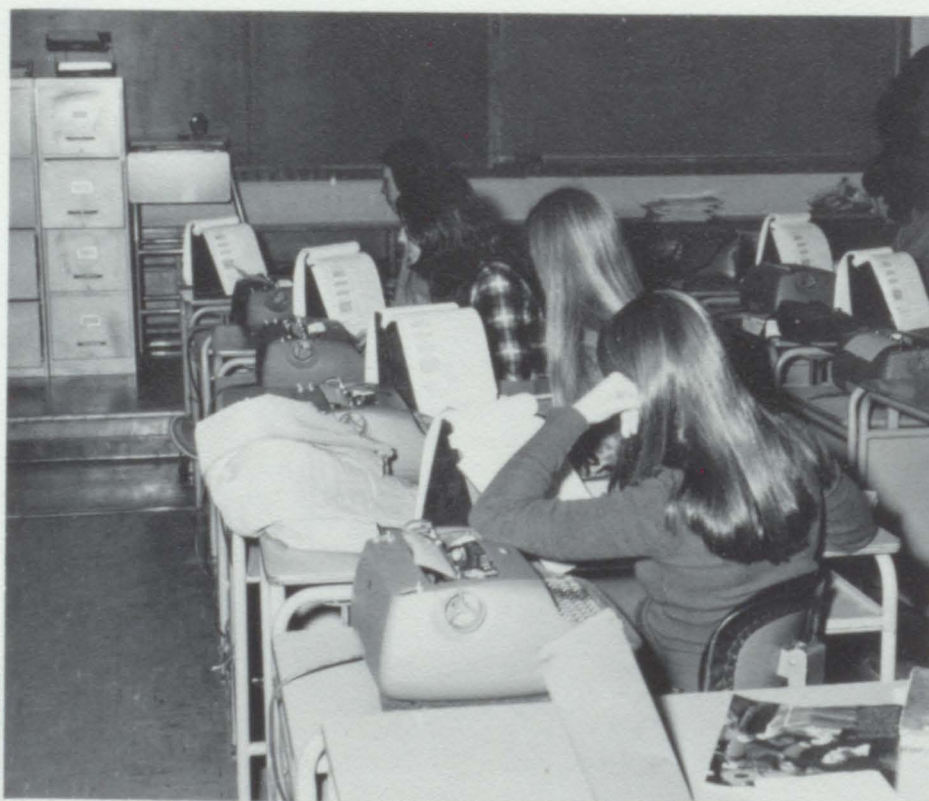

New in the Department this year are four Consumer Education mini-courses: Consumer Finance Market Place, Consumer Finance Management Planning, Law and the Consumer, and Consumer Buying Guide. These personal value courses, which have been very successful, use the multi-media approach instead of traditional textbooks. Audio-visual aides are being used more extensively. Of special interest is the use of video-tapes in simulated interviews.

The Art Department aims to develop the individual's growth and ability in arts and crafts. New potter's wheels have been purchased to accommodate the increased numbers interested in pottery. The varied program provides both vocational training and personal enjoyment.

Courses in cooking prove helpful in teaching techniques and methods of cooking, nutrition, and home management. In an attempt to broaden its program the Home Economics Department is offering a course in child development.

Two experiments were undertaken this year and proved to work out well. One was the exchange of girls in a cooking class with boys in the Industrial Arts class. The other was the program in which sixteen girls rotated in groups of four for two-week periods to help the cafeteria staff with cooking, serving, and keeping inventory. Through this invaluable experience they learned menu planning, budgeting, cooking for large groups, and careers in food service.

Guiding the spirits of youth into channels which help them develop sound minds and bodies, and keeping them in condition for today's active world are two purposes of physical education. ## Behind the scenes, operational groups provide vital services for students and staff

The Special Services personnel play an important role in keeping the school running smoothly. Along with providing nourishing meals for the student body, the cafeteria staff cheerfully commemorate all holidays with traditional desserts and decorations. In addition the cafeteria staff have now enlarged their services to include a daily breakfast for all those who were too rushed to eat at home. The program which has proven very successful, hopefully will be continued next year.

The custodial staff is another important segment of Special Services. Quietly and efficiently they keep the school clean and comfortable. They are always ready to help.

## activities

A day at Ramapo is more than a series of classes. After the formal school day a large percentage of Ramapo students remain in the school to become involved in the activities of their choice. For many these activities play as important a part in their high school education as their academic studies. Activities provide the student with skills in certain areas that he would not acquire in the classroom: how to run a radio station, put together a publication, participate in a representative government or play a musical instrument in a band. Students develop leadership, the techniques of organization, the importance of co-operation. Each must take these skills and experiences and decide, "Where do we go from here?".

**STUDENT COUNCIL EXECUTIVE BOARD** — Seated: Mary Beth Byrne; Allyson Northrop, Kathy Lotz, Betsy Matel, Karen Heerse, Rich Springman. Standing: Dave Lyle, John Kingsley.

Students seeking an outlet for their ideas, find Student Council provides them with a line of communication. Meetings are open to all students who strive for change, improvements, or modifications of the existing school system. Student Council also provides a learning experience for members of the school and community. This experience includes developing attitudes toward good citizenship, scholarship, human values, and service. Furthermore Council provides the training ground for leadership.

This year the major issues discussed were early dismissal, no final exams (both of which were achieved) an open campus, and Behind-The-Wheel Driver Education. Student Council sponsored a Ski Night, members attended the annual convention of the N.J. State Student Council Organization at Rutgers.

Ad Astra staff members under the advisorship of Mrs. Edith Briefstein spent endless hours compiling a record of this school year at Ramapo. Excitement ran high and frenzy mounted as deadlines approached — and passed.

In spite of the conscientious efforts of the staff, there were times when photographs were misplaced, schedules were overlooked, enthusiasm waned, yet the staff persevered and completed their job.

They hope you will enjoy reliving the year 1973-1974 many times in the future.

Keeping Ramapo students together and informed about their school are the goals of the RAMPAGE staff. The paper provides an outlet for student writings. The journalistic experience has helped prepare many students for professional jobs with the press. Some literary staff members gather, present and analyze news and try to guide student opinion. Others solicit creative art and literary work to be incorporated in lively feature pages. A quest for constant improvement has brought obvious results because RAMPAGE sales have shot way up.

## Creative literary and Artistic talents expressed in Serendipity and Arriba

### SERENDIPITY

*Serendipity* was published by the talented members of the Serendipity Club. The creative arts magazine included poetry, prose, art, photography and songs submitted by students from all classes. One large issue was published and a contest was sponsored for the best poem, prose, or art with one prize each for the upperclassman winner and underclassman winner.

### ARRIBA

A few singular members of Ramapo's enthusiastic student body decided to create and publish their own newspaper. The free press paper published articles written by students and faculty. The articles contained in the paper were mostly literary; however, ideas on politics were also expressed.

### PSYCHOLOGY CLUB

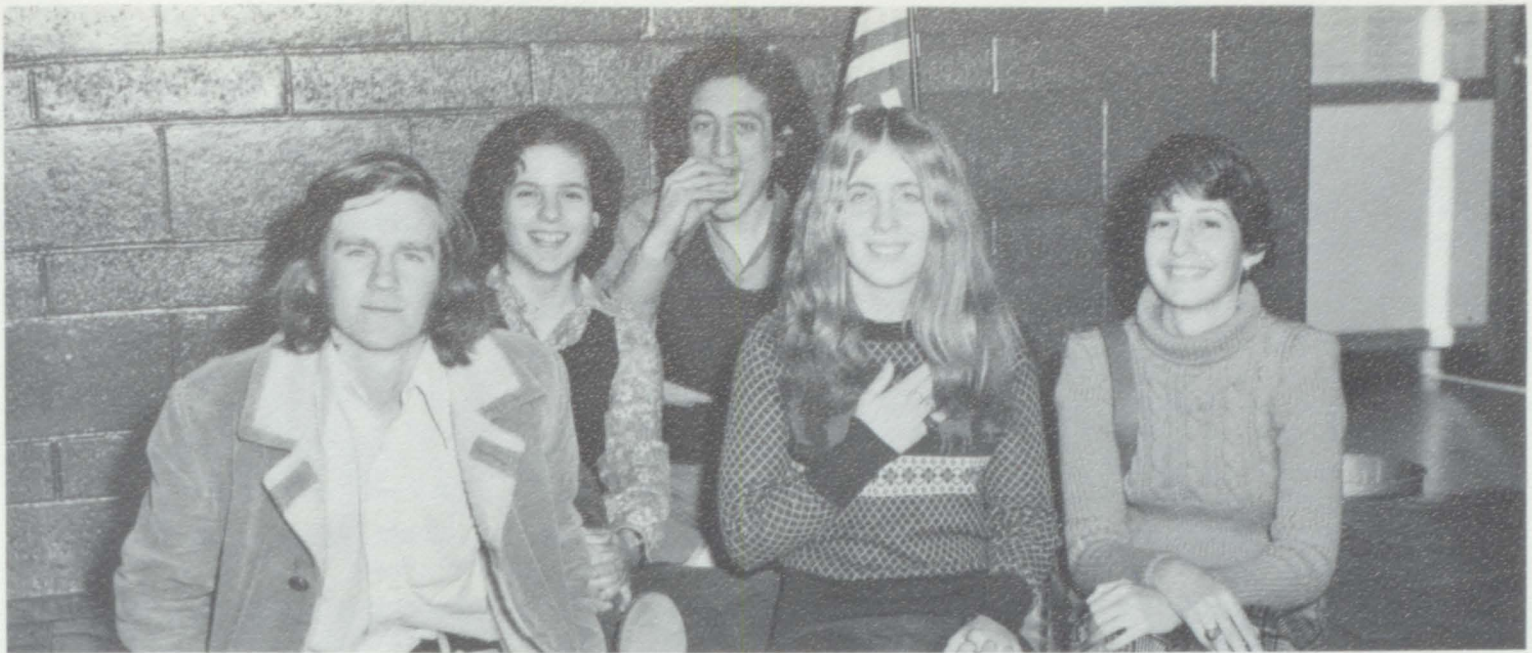

Seniors taking psychology formed a Psychology Club to enable them to go on field trips and to have guest speakers. Each of the four classes elected officers. All psychology students are members of the club.

## Learning the language of France, Spain, and Germany - first step in understanding the people and their culture

The Latin Club stimulated interest and knowledge in the Latin language and culture in its members. A candy sale was conducted and with the proceeds members went into New York to see the play *G* and have a Latin-style dinner.

The German Club strove to make the study of the German language more rewarding and relevant by enjoying German culture and life styles. Members held an annual Oktoberfest, German Student Convention and Picnic. New activities included a Karnival and a bicycle trip. Members also visited a home for the aged at Christmas to spread their cheer in a German fashion. One of the goals of the club was to send a member on an exchange program to Germany.

The Spanish Club had its members explore more of the Spanish culture and promoted a greater understanding of the language. The Spanish Club took a very different role this year. They sponsored the Holiday Festival which involved many Spanish speaking children from Paterson. The Holiday Festival was a great success. Steve Maiolo spoke in Spanish to the children about his trip last summer to Bolivia.

The International Dinner was the main project of the French Club this year. All the clubs prepared meals and the French Club organized the evening.

## Math, Science, Chess Clubs offer thoughtful stimulation

**CHESS CLUB** — Seated: Miss Neri, advisor; Glenn Dykstra, Phil Hermida, Tom Giamonco, Steve Hoffman, Mark Bronkowski. Standing: Brad Theurer, Richard Thorp, Steve Conwill.

The Chess Club encouraged the learning of skills in playing chess and then competed in tournament and league play. At the meetings, members taught each other new moves and worked to improve their game. Try outs were held and the top players made up the chess team which competed with other schools. The Chess Team provided interscholastic competition for those who like it but do not want to go out for a particular athletic sport.

The Science Club, under the direction of Mr. Richard Cantor, developed a better understanding and awareness of various areas of science by means of individual and group research and through outside sources such as guest speakers, movies, and field trips.

Members did a study on comets and worked on a telescope to view Kohoutek. Ecology continued to interest members who after five years were still active in FUFAC (Future Use for Aluminum Cans). Bird watching Martins in the circle was another interest of the group.

Members of Ramapo's Math Team competed with students from other schools in doing problems in advanced mathematics. The Team participated in five county meets. Barbara Armstrong ranked first in the County League; Mark Psiaki ranked second.

### WRRH

WRRH is owned by the Ramapo-Indian Hills High School Board of Education and is operated by students under the advisorship of Mr. Don Lawshe. The station's activities are music, daytime and evening programs, broadcasts of basketball games.

### RADIO CLUB

The radio club, under the advisorship of Mr. Don Lawshe, provides students with the opportunity to learn about electronics.

### PHOTOGRAPHY CLUB

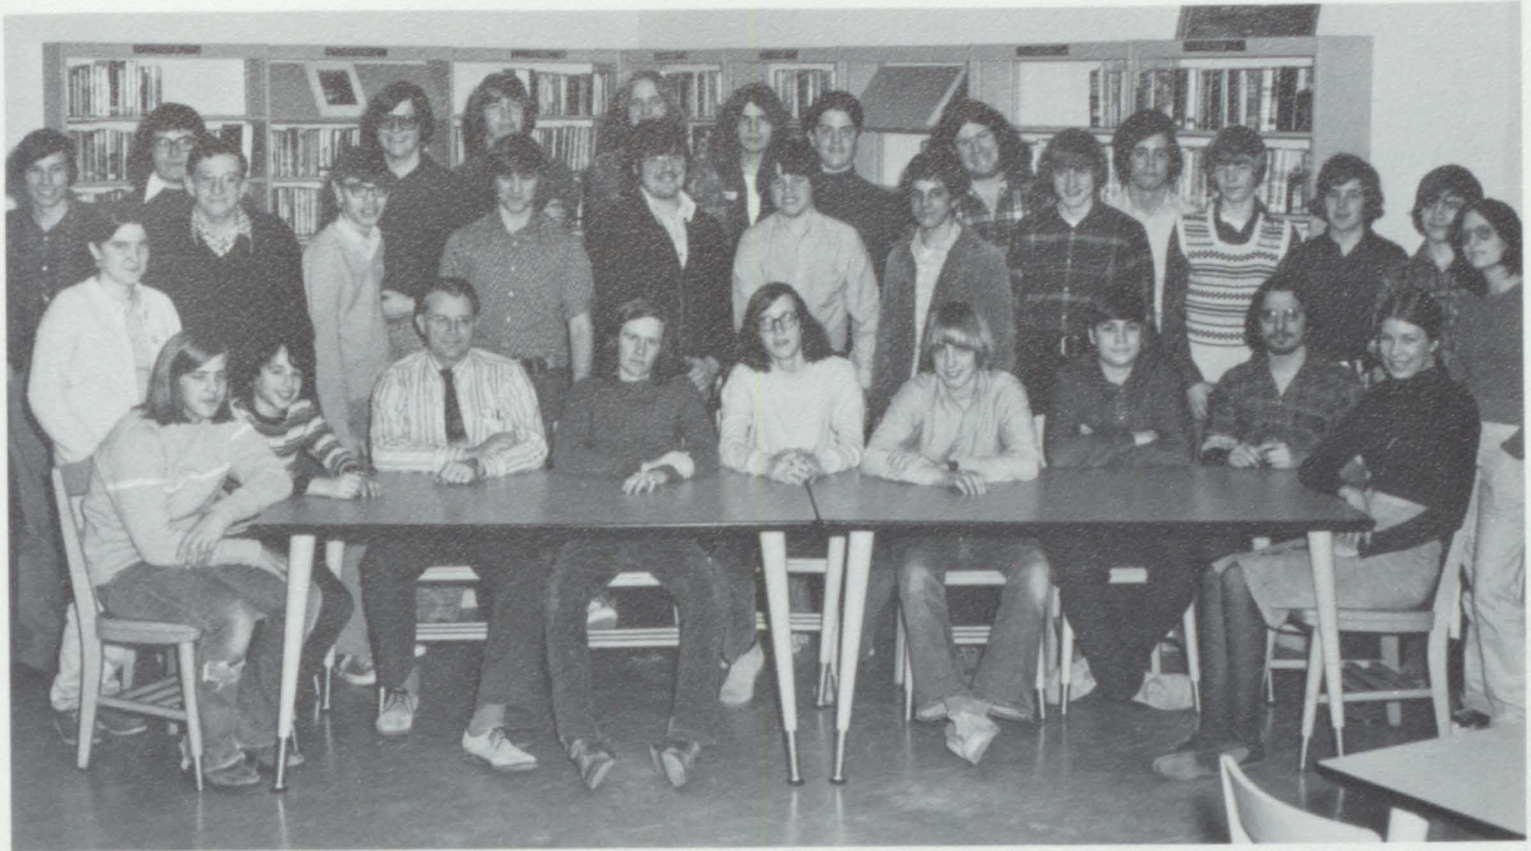

Under the leadership of Mr. Steve Gaesser, members learn the methods and techniques used by successful photographers and attempt to develop their own style. The club sponsored a series of lectures on advanced photography in films and tapes from Kodak.

**SCHOOL STORE** — Rick Larson, Lori Herzog, Criss DeVust, Janet Wallendal, Mary Fae Senn, Mr. Walter E. Ross, advisor.

### LIBRARY COUNCIL

Members of the Library Council served the school by helping to keep the library in order. They checked out books and arranged the shelves. Proceeds from the annual Book Fair and candy sale enabled the club to see SLEUTH.

### SCHOOL STORE

The School Store provided a service to Ramapo students which enabled them to buy school supplies at a lower price than in a retail store. The store also gave student volunteers experience in salesmanship.

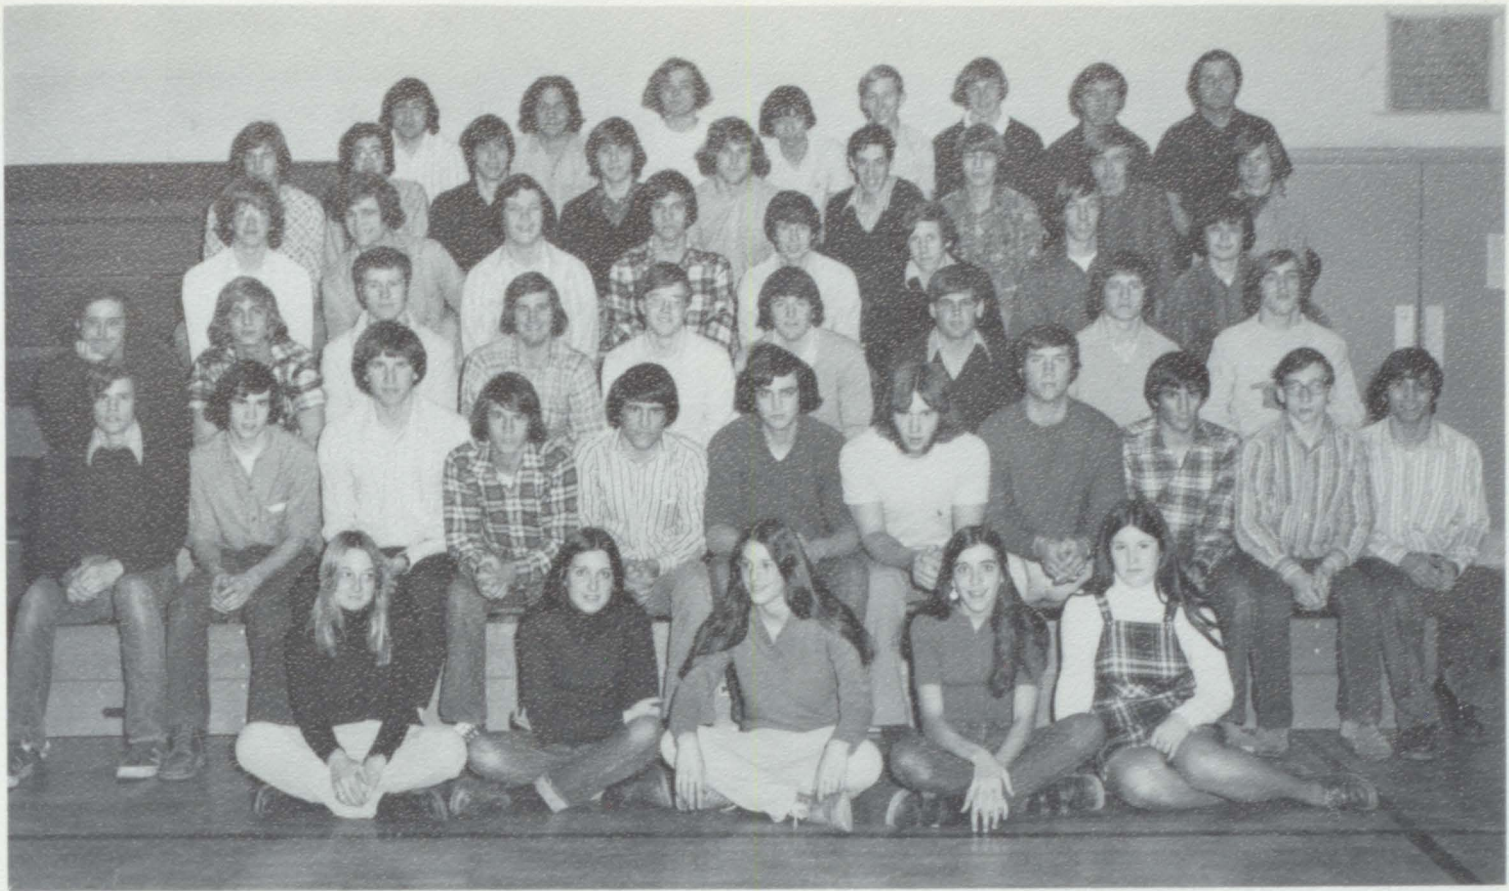

### VARSITY R

Members of the Varsity "R" are distinguished athletes. Last year, with the coming of women's lib, females were admitted for the first time. The addition of 3 varsity sports for girls are expected to increase the membership of girls in the club.

### LEADERS CLUB

The Ramapo Athletic Leaders Club is a service organization designed to promote the benefits of physical education and sports. The girls in the club acted as teacher assistants by taking attendance, officiating at games, and teaching skills in their gym classes while also running the intramural program.

# National Honor Society raises money for two for two scholarships

Students outstanding in scholarship, leadership, and service are recognized as members of the National Honor Society. They serve the community and their fellow classmates through a used book sale, bake sales, guides for Back-to-School Night, and as tutors for students needing help. The money raised provides a NHS scholarship awarded at the end of the year. Members attend monthly meetings as well as meetings of National Honor Society Convention.

# Bowling, Swords, and Sewing Clubs provide outlet for individual interests; Tri-Hi-Y provides opportunity for service.

## BOWLING CLUB

Bowling Club, under the advisorship of Mr. Art Scott, provided students with the opportunity for organized bowling. From the club the Varsity Bowling Team was chosen. This year the Varsity Team won the League title.

## SEWING CLUB

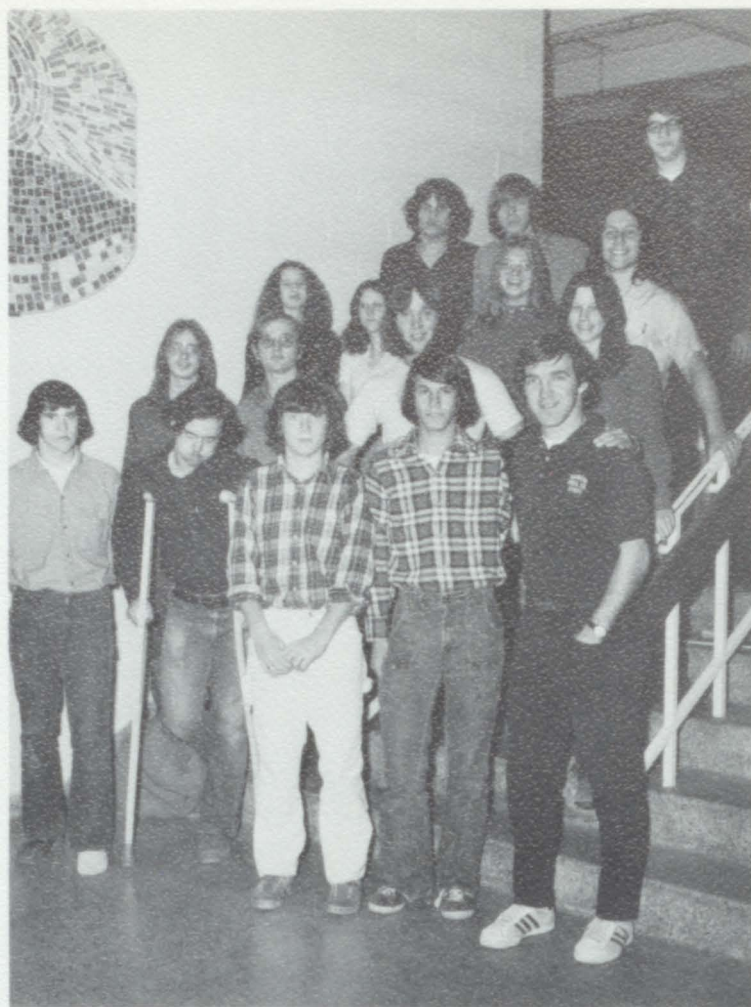

Miss Rizzo's Sewing Club learned to sew in their leisure time and to practice new crafts. Traditional projects, determined by individual members were completed as part of the club's activities.

## TRI-HI-Y

Under the advisorship of Mrs. Chonko, Tri-Hi-Y helped others less fortunate. As part of their service, Tri-Hi-Y collected for UNICEF, painted pumpkins for an orphanage, held parties at the North Jersey Training Center and at the Eastern Christian Sanitarium.

## SWORDS CLUB

The popularity of the Swords Club attests to the fact that fencing is very much a part of the sporting activities at Ramapo. The Swords Club fostered the skill of fencing.

## Gold Masque and YAC produce musical hits under the direction of Mr. Godthaab

The Youth Activities Council encouraged cooperation among the administration, faculty, students and the community through involvement in various activities. The YAC and Gold Masque cooperated in the productions of *DON'T DRINK THE WATER* and *HOW TO SUCCEED IN BUSINESS*. They held various activity nights throughout the year, a Holiday Festival, and an International Dinner. The YAC helped bring about an increased awareness among students, faculty, administration, and community by a program held on May 22 called Awareness Day. Mrs. Lynn Malkovsky and Mr. Ray Moskal, YAC advisors, supervised the organization of lectures, demonstrations, workshops, displays, performances, slide shows, dialogues, panels, debates, experiments, and films.

## Diversified singing groups exhibit talents in assembly and concert programs

Mr. Jerome Siegel directed the vocal music department which consists of four choral groups: the Concert choir, the largest group of mixed voices; Male Chorus; Girls' Chorus; and the Chorale, an advanced group of a capella singers. The choruses promoted the enjoyment of choral singing through a variety of musical styles and provided a student and community contribution in the form of assemblies and concerts. Some members had the honor of singing with the County and All State Choruses. The activities of the group included field trips to New York to attend the New York State and Metropolitan Opera performances. The culminating performance in June is an all-choral Concert which is recorded.

## underclassmen

It is the underclassmen who must take over when the Seniors leave. For Freshman, their high school experience has hardly begun. As they emerge from the confusion and uncertainty of their first year, they must decide what direction they will take for the next three. Sophomores have begun to realize their own individual potential and ability. Juniors have begun to think seriously about what course their future will take.

As underclassmen they must examine the role they wish to play in their classes and decide on the contributions they wish to make. They have made a start. Now they must face the question, "Where do we go from here?"

## sports

The enthusiasm and dedication which the field of sports requires are an important and necessary aspects of high school life. Participation is the key to sports, whether we choose to play or choose to lend support to the team. We will all remember winning the big games, the celebration that followed and the satisfaction for the participants. When we lost, it brought on \*silent thought and analysis as well as the desire for another chance. Some of us will go on to participate in collegiate sports while others will choose not to or will not be able to. Whatever we choose, we realize the accomplishments of high school are behind us and we must now start over and ask ourselves, "Where do we go from here?".

## Varsity Football ends disappointing season

The Football Squad ended a disappointing season with an 8th place finish in the League. Lack of scoring and the inability to come through with the clutch play led to a 2-7 record. Turnovers also played an important role in the team's poor showing. The Raider offensive unit proved to be very inconsistent because there was not a well balanced attack. Except for their two victories over Pascack Hills and Old Tappan the gridders failed to come through with a good overall team effort.

Despite the losing record there were some bright spots in the season. Junior Fred Depkin was an All-League selection as well as being named on the All-County Teams. Seniors Kevin Cahill and John Opremacak were named Honorable Mention All-League. Statistically the team looked good as running backs, Jim Remo and Bruce Depol, both averaged over 4 yards per carry. John Jensen, a junior, led the county in pass receptions along with breaking the school record with 37 catches. Senior Captain Skip Ammon showed his versatility by playing both ways for the Raiders. The coaches are hoping to improve on this year's record as 18 lettermen will be returning.

## Soccer Team post most wins in Ramapo history:

The Varsity Soccer Team, coached by Mr. Chuck Swenson, became the best Soccer Team in Ramapo history. The Raiders closed out their campaign with an overall record of eleven wins, five losses, and three ties. In league play, where competition was keen, they used a well balanced attack of scoring and defensive play, to compile a 9-2-3 record. The Raiders, ranked number nine in the county, also made strong appearances in the State and County Tournaments. Making its first showing ever in the State Tournament, Ramapo lost a heartbreaker to Union, 1-0. They were eliminated from the County Tournament after losing a close one to top seeded Tenaflly by a score of 2-0.

Leading the way for Ramapo were Kirk Kalstad, Chuck Crawford, Boudouin De Bont, Eivind Boe, and Cliff Weber. Kalstad gained post-season honors as honorable mention All-State and All-County, as well as first team All-League. Boudouin De Bont, a foreign exchange student from Belgium, was a welcome addition to this year's squad, and was nominated to the first team All-League and honorable mention All-County squads. Also receiving honors were Chuck Crawford, the team's leading scorer (8 goals and 4 assists), who was chosen second team All-League and honorable mention All-County; Eivind Boe, 2nd team All-League, and goalie Cliff Weber, honorable mention All-League. The team which has six returning lettermen hopes to make a run at the league crown next year.

The Varsity Cross Country Team, coached by Richard Mullins, continued the Ramapo tradition by completing another winning season. The team was led by Senior Captain Doug Crandall who was plagued by injuries throughout the year. The Raiders finished 6th in the tough NBIAL League, but had an impressive 3-1 record against outside competition.

The top runner on the team was Senior Bill Kirkenir who set the course record here at Ramapo. The record is for the new course that was just opened in 1973. Senior Dave Marcil and Sophomore Russ Stevenson also helped the Raiders finish over .500. Russ Stevenson has a very promising future on the team as he ran against many upperclassmen throughout the year. Next year's team will be a young one with only one letterman returning.

## Coach Corizzi retires with 3 consecutive NBIL Championships

The Raider Basketball Team concluded their final season under Coach Hal Corizzi with the most wins in Ramapo history. The team finished with a final record of 19 wins and 4 losses.

Within those 19 victories are the Glen Rock Christmas Tournament Championship and the third consecutive Northern Bergen Interscholastic Athletic League title. The Raiders also entered the Bergen County Jamboree and the State Tournament.

Bob Kleinert, picked as co-captain by his teammates along with Jim Salek, was a unanimous choice on the first team All-County. Bob finished his fantastic career with 1,784 points which is a school and league record.

Coach Corizzi will retire from his position this year ending his 18 consecutive winning seasons at Ramapo. Corizzi's record was 252 victories and 113 defeats, a .692 winning percentage. The Corizzi era at Ramapo ended with 3 consecutive league titles, the first time this has ever been done.

Coach Howie Stier's Freshman Basketball Team compiled a sensational 17-1 record this year. In League play they never tasted defeat while winning 15 games, good enough to win the League by a 4 game margin. The other two wins and their only loss came in the Tri-County Officials Basketball Association Tournament, where the Raiders captured second place, losing only in the finals. This was the first time in Ramapo history that the frosh advanced to the finals in tournament play.

One of the team's co-captains, Jackie Kleinert, was voted to the All-Star Team in the tournament. During the season he was team high-scorer. Other steady performers for the year were co-captain Jim Stafford, Jamie Atribat, Rick Cavanaugh, Mike Edson, Ronnie Pires and Bob Sterrett.

## Boys' Fencing Team finishes third in state; Individuals win awards

The Boys' Fencing Team, under the direction of Coach Bob Titus, was defending State and Cetrulo Champions this year. The team was headed by Senior co-captains Kent Droppers, Bill McKee, Jack Tichacek, and Carl Galarce who led the team to an 11 and 4 overall record. In the Christmas Tournament, Jack Tichacek took 3rd in foil, Tom Manobianco took 3rd in epee,

while Bill McKee placed 6th and Kent Droppers placed 5th in sabre. During January the Raiders entered the Cetrulo Tournament and placed 2nd as a team. The Epee Team of Tom Manobianco, Bill McKee and Jim Cozine took first; the Foil Team was second and the Sabre Team finished third.

The State Tournament climaxed the season as the Ramapo Sabre Team took home the State Championship in this division. The Sabre Team was composed of Kent Droppers, Carl Galarce, and Scott Rathjen. Individually, Tom Manobianco and Kent Droppers took home the honors with Manobianco winning his second straight State Championship in epee and Droppers placing second in the sabre competition. Jack Tichacek had a fine showing as he placed third in the foil competition in the State.

After capturing the overall State Championship in 1973, the Ramapo Tennis Team hopes to repeat this feat in 1974. The team is headed by Seniors Bill Csipkay, Tom Manobianco, Bill McKee, and Bob Kleinert. In the Bergen County Tournament, the Raiders captured both individual titles as well as the team trophy. Bob Kleinert captured the singles title for the third year in a row by defeating teammate Bill Csipkay in the final. The doubles duo

of Tom Manobianco and Bill McKee took home the trophy for the County Doubles Championship.

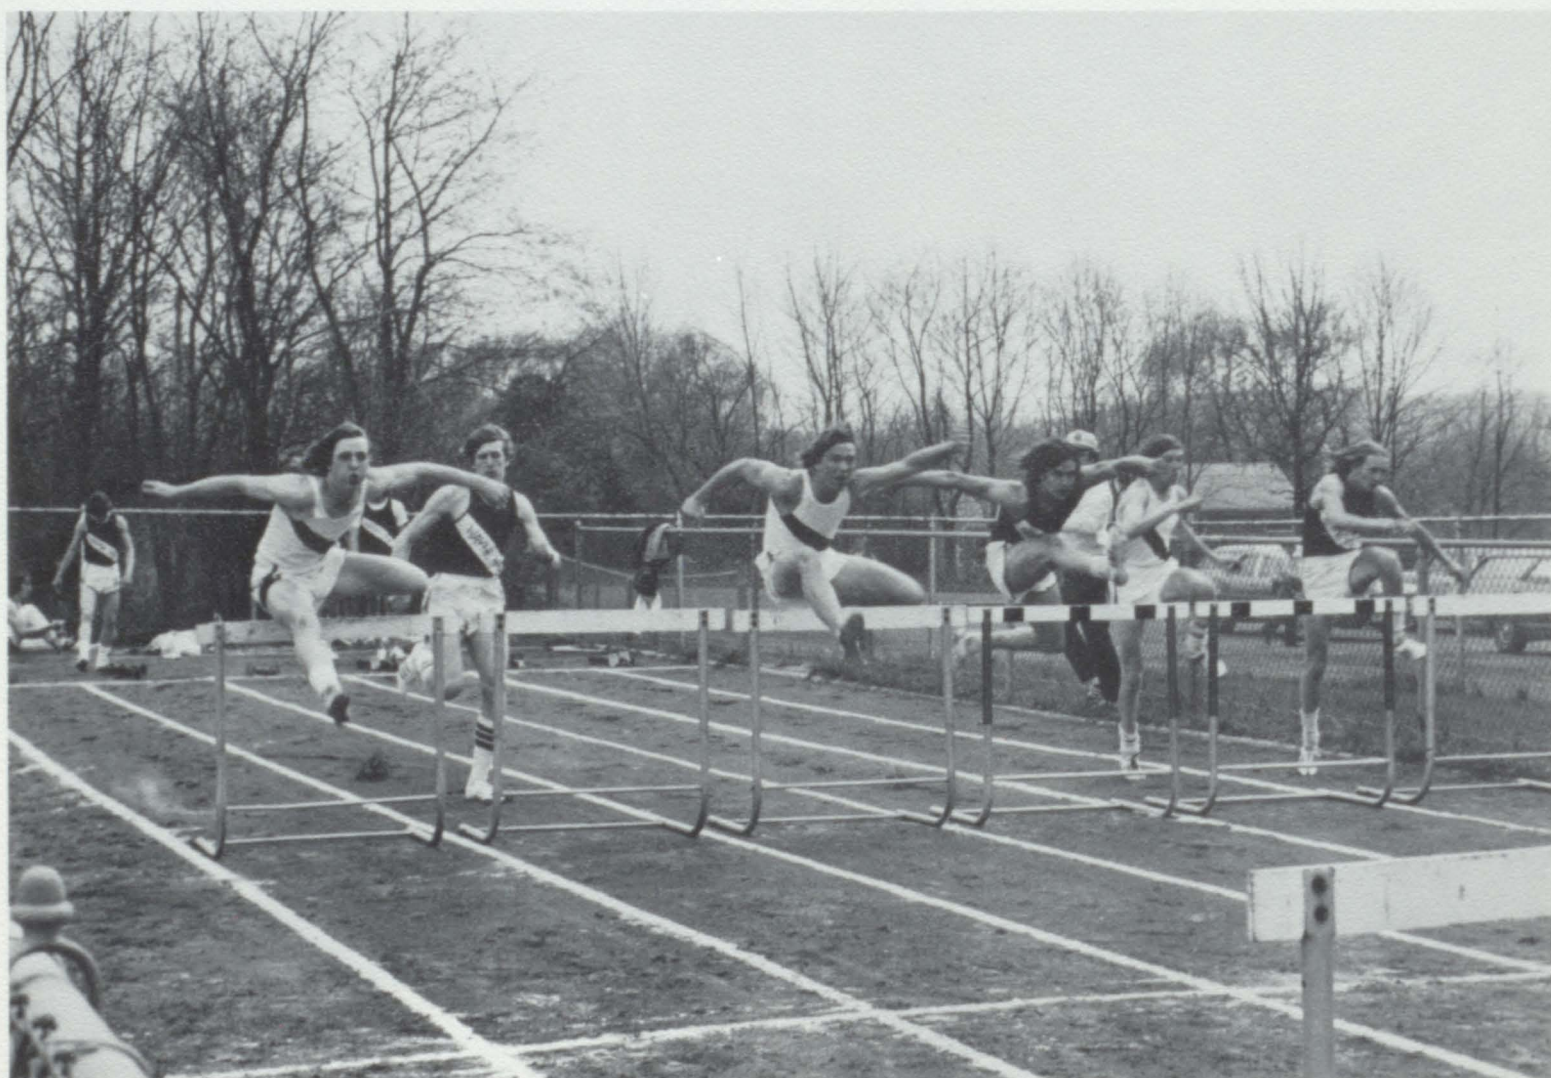

The State Tournament will be tough as the Raiders are the team to beat this year. Posing threats to the crown are Mountain Lakes, Westfield, and CBA. Coach Dave Prommel must have his team ready if they are going to capture a second straight State Championship.

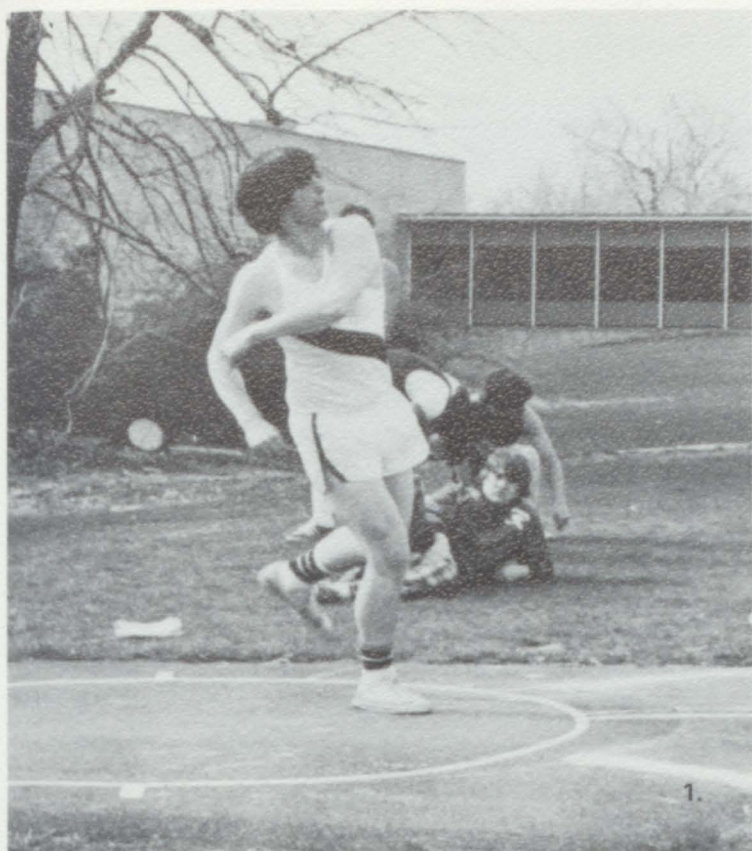

**TRACK TEAM** — Front row: Coach Steven Gaesser, John Remington, Walt Pozarycki, Randy Nardoza, Joe Manz, Jim Remo, Mike Dwyer, Dave Marcil, Bill Kirkenir, Bruce De Pol, Doug Crandall, Scott Scholtz, Bob Bush, Bob Thompson, Coach Richard Mullins. **Second row:** Mike Daly, Joe Gromada, Bill Jackson, Jeff Mott, Cliff Weber, Mike Foly, Doug Aker, Ken Huber, Tim Opremcak, Rich Crandall, Tom Williams, Bob O'Connell, Bob

*Jim Remo leads the field over the first hurdle as teammate Bruce De Pol is in close pursuit.*

## Early Track victories show promise for outstanding season

Midway through the 1974 Track season, the Ramapo Track Team has shown signs of challenging for the league title. The team captain is Bruce De Pol who is an outstanding hurdler for the team. Senior Jim Remo is also a very capable hurdler. Both give Ramapo a one-two punch in these events. Sprinter Tom Williams, still only a Junior, is one of the fastest men in the league. In the distance events the team is relying on Dave Marcil, Bill Kirkenir, and Doug Crandall to accumulate the points. The field events are the weak link of the team although there are two capable performers in John Jensen and Bob Bush.

The team record is 3-2 thus far, although both losses were less than 5 points. If Ramapo is to finish near the top of the standings it must benefit from their depth as well as their scores in the closing events. The Raiders hope to finish among the top 3 with strong challenges from Pascack Valley, Northern Highlands, and Wayne Hills.

1. Steve Hovey displays graceful form after throwing the shot put.
2. Junior Tom Williams wins easily in the 100 yard dash.
3. Doug Crandall looks disappointed despite his first place finish.

*Nick Fusilli rounds third, heading for home as Coach Turro encourages him to go.*

## Seniors lead Baseball Team to early victories in tough NBL

After 10 games, the Ramapo Varsity Baseball Team has shown that they are contenders for the league title. Led by captain Pat Ferro, who is batting .370, and second baseman Nick Fusilli, the team hopes to finish among the top 3 in the league. John Leonard leads the pitching staff which will play the vital role in the league race. John now holds the record for the best percentage pitcher in Ramapo history and he is trying to capture the alltime victory record for the school.

The team has missed the services of Pete Crandall and Jim Mastandrea both outstanding hitters who graduated last year. Pascack Valley, River Dell, and Indian Hills are the the teams the Raiders must beat if they are going to get a league title.

## Wrestling Team's best season - fourth in League

Along with a new coach, this year's Raider Wrestling team took on a new philosophy as well — winning. For the first time since the school began wrestling, Ramapo had a season over the .500 mark.

Much of the credit can go to key seniors who gave stability and a touch of maturity to the squad. Led by Captain Skip Ammon (170 lb.), the Varsity put together a 6-4 log including a three-match win streak over Indian Hills, Old Tappan, and Pascack Valley. Seniors also made up the heart of the line-up beginning with Ray Gibello (122 lb.), Bruce Sullivan (129 lb.), and Mark Zaretski (135 lb.).

The Raiders had six wrestlers names to all-NBIL teams with Ammon taking top honors on the Second Team. The five Honorable Mentions include Gibello, Sullivan, Zaretski, Battaglia, and Hovey. Ammon, Gibello, and Hovey also were named to the All-County Honorable Mention line-up.

Streiking through this year's NBIL tennis season, under the direction of Coach Vicki Smith, the Girls' Tennis Team was able to obtain a 15-2 record.

The starting line-up was Captain Sue Csipkay first singles, Trish Bramante 2nd, and Cathy Jones and Cindy Marione alternating for 3rd. Both doubles teams of Sue Jones and Colleen Connors, and Betsy Malkovsky and Nancy Dancker were undefeated for the season.

The J.V. showed great potential and should maintain the high rank of the Varsity Team when Senior spots are filled.

## seniors

For Seniors, more than any other students, the future is uncertain. Today, many are questioning the value of a college education. Seniors have had to decide whether to continue their education next year or to look for a job. Others have had to face the difficult decision of whether or not to marry. However, more difficult questions still lie ahead. Now that we are leaving the relatively safe, sheltered world of high school we must face the question of what our role in society will be. Some will face these questions squarely while others will shrink from them. In any case, what we will make of our lives in the years ahead is a decision each of us must make. As we end our high school years with all their joys and anxieties, triumphs and frustrations and look towards the uncertain future, we ask ourselves, "Where do we go from here?"
